In not less than 50 words, describe the content of the story / book briefly.

The content of this book is talking about during Tuesday night, there were two thieves who are called 'Gerson' and 'Tommy' went into a women's flat and stole some jewellerys which are exquisite. Although the police went to the flat just a few minutes after the woman's calling, the thieves went away quickly. Then, Mr. Sherlock Holmes started investigating this case by checking some investigations privately for some months. Finally, after working

hard, he found the thieves successfully and helped the police to solve this case effectively. I think this book is unexpected for me as there are many plots which are difficult to guess, and the ending gives me a surprise.

Write a brief comment or your impression of the book.

My brief comment of the book is there are so many mysterious plots which are investigating cases, may help me to become a professional detective like Mr. Sherlock Holmes in the future. For instance, when we looked at the investigations, we needed to use a magnifier so as to check it carefully and clearly. Also, we may research about how was the mind and psychology of the thieves when they stole things and the fingerprints which left down on the investigation.

The character I like most is Mr. Sherlock Holmes because he is a professional detective and he has investigated a huge case which is about two thieves.

The character I dislike most is 'Gregson', one of the thieves who were stealing because I think he is damaging the safety of the society. Even after he has been caught by the police, still he didn't admit his crime.

If I could rewrite the beginning / ending / any part of the story, I would make the following changes:

Last year, there was a case about two thieves stealing things in a woman's flat! However, the police still haven't solved the case. Mr. Sherlock Holmes has asked the police again just in few minutes. They said it was difficult to catch them as there are not enough investigations for researching and they estimate the thieves ran away for a long time.
